

Moment of Truth

Capture every moment in indoor and outdoor surveillance applications 24/7. Our new HCX Series megapixel cameras increase the effectiveness of your security system by providing images with true details. With the HCX Series, recorded images can be zoomed in up to 20 times without losing image quality. When the moment of truth arrives, the HCX stands up to the test.

The HCX Series megapixel cameras offer world-class video, leading-edge IP networking technologies and savings on installation and equipment costs. When object recognition is needed over a vast field of view, one megapixel camera can often do the same job as several standard analog cameras. The HCX Series consists of three box style cameras: the HCX13MW, offering 1.3 megapixels; the HCX3W, featuring 3.1 megapixels; and the HCX5DW2 that gives you 5.0 megapixel True Day/Night functionality.

Product features:

- MJPEG compression
- Multi-zone motion detection
- User selectable exposure window
- Web server for remote setup of camera video and network parameters
- Excellent low light performance
- Choice of power inputs: 12 VDC/24 VAC or PoE (802.3af)

CUSTOMER BENEFITS:

- Super high quality video maintained with zoom
- Quick, easy and customizable setup with analog video output
- Minimize bandwidth and storage with cropping window tool
- Send snapshots or video clips to e-mail or FTP addresses

HCX Series Megapixel Cameras

Moment of Truth

Post-zoom processing enables analysis of fine details such as license plate numbers, identification of facial features, and recognition of currency.

Zoom in on any part of the image to reveal critical details.

HCX5DW2 Megapixel Camera

- 5 MP
- 4.5 - 13 Vari-Focal Fixed Iris Lens
- True Day/Night

HCX3W Megapixel Camera

- 3 MP
- 4 - 10 mm VFMI Lens

HCX13MW Megapixel Camera

- 1.3 MP
- 4 - 10 mm VFMI Lens
