

SnapPak Camera/Housing Kits

Security solutions for outdoor installations—all in one box

Honeywell's SnapPak Camera/Housing Kits incorporate Honeywell's new high resolution cameras to offer a complete surveillance solution for all outdoor installations. Seven pre-packaged kits with various combinations of cameras and lenses make it easy for customers to use a single part number and order exactly what they need to do the job.

The new SnapPak Camera/Housing Kit contains a camera, lens, power supply, housing, wiring and conduit in a single box for easy outdoor installations. Aspherical DC Vari-focal Auto Iris lenses are available in wide angle or telephoto. For extremely dark applications, SnapPak's True Day/Night cameras can take advantage of external infrared illumination to further improve low-light sensitivity. The camera choices include:

- Network High Resolution True Day/Night
- Analog High Resolution True Day/Night
- Analog Day/Night with Digital Noise Reduction
- Analog High Resolution Day/Night
