

RAID 5 HDD Replacement Application Note

Overview

Below are the stipulations related to replacing failed Hard Drives on a RAID 5 array.

Guidelines

- Only replace the Hard Drives with identical models provided by Technical Support.
- Never reinsert a previously failed hard drive.

Warranty of the RAID will be null and void if the above recommendations are not being followed.

To help customers follow the guidelines above, the following label is attached to RAID system shipping commencing in February 2009.
