

## HD5

### SUPER HIGH RESOLUTION, DAY/NIGHT OR ULTRA WIDE DYNAMIC COLOR INDOOR DOME CAMERAS

Honeywell's HD5 Series of indoor fixed dome cameras is ideal for discreet fixed camera surveillance where high-quality video is a necessity. Each unit packages a high-performance camera and a full-sized CS mount lens into a small, aesthetically pleasing 5-inch dome. In-ceiling and pendant dome options are available with black or white trim ring finishes, and smoke or clear lower domes.

The HD5 is highly customizable for your needs. There are two camera models to choose from: the super high-resolution 540 TVL camera or a Wide Dynamic Range camera that uses the Digital Pixel System® (DPS) sensor technology.

Easy accessible switches on the top of the camera make setup quick. The HD5U also comes with a one-button camera setup lever control to access the on-screen display menu. The compact flush one-piece mount design allows for fast, easy installation. A pendant mount and standard 4x4 electrical box kit is available for inconspicuous installation in virtually any application. A service/monitor cable is also included for easy on-site adjustments.

The HD5 is equipped, depending on your needs, with either a 2.7-13.5 mm or 5-50 mm varifocal auto iris or manual iris lens to cover a wide range of viewing angles. This is supplemented by easy picture adjustment via the 3D axis gimbal that is capable of 360° of pan, 180° of tilt and 360° of horizontal rotation.

The HD5 accepts either 12 V DC or 24 V AC (auto sensing) for proper operation and flexible installation. In addition, the HD5 Series is available in two transmission media (Coaxial or UTP) integrated inside the camera.

#### Market Opportunities

The HD5 is a general surveillance solution designed for object recognition required in locations where variable light and low light conditions exist. True color reproduction and excellent low light performance result in enhanced picture quality. Attractive cosmetic appearance makes HD5 Series dome cameras the ideal solution for a wide range of surveillance applications such as retail sites, casinos, banks, malls, residential applications or hotel lobbies – anywhere surveillance must be discreet.

#### Features

- 1/3" Sony HAD CCD™ or Ultra Wide Dynamic DPS imager
- Models available: 540 and 540 TVL Wide Dynamic
- Varifocal lenses available: 2.7-13.5 mm or 5-50 mm Auto Iris lenses, 2.7-13.5 mm or 5-50 mm Manual Iris lenses
- Pendant and back box mount kits available
- Black or white trim-ring finishes available
- Smoke or clear domes available
- Dual 12 V DC/24 V AC
- Local video output for setup
- Two transmission media (Coaxial, UTP) integrated inside the camera
